

Single-fibre Port Cleaner

2.5 mm connectors

CORNING

Corning single-fibre port cleaners are designed to clean connector end faces in patch panels and adapters. An integrated dust cap allows for cleaning unmated connector end faces. Single-fibre port cleaners are proven effective for removing the following from connector end faces: skin oil, hand lotion, Arizona road dust, pre- and post-mate graphite, salt, isopropyl alcohol residue and distilled water residue. These cleaners are easy to use and offer over 525 cleanings.

Features and Benefits

Cleaning system rotates 180 degrees

Provides a full cleaning of the connector end face

Extendable tip

Allows for cleaning in hard-to-reach spaces

Cleaning fibres dissipate static

Addresses any electrostatic discharge (ESD) concerns

Numerous engagements

Offers over 525 cleanings
